- May 15, 2018

Wednesday evening, Campbell County residents will have the chance to welcome and connect with the tenants of the Integrated Test Center.

Hosted by Campbell County, the city of Gillette and Energy Capital Economic Development, the event will take place from 5:30-7:30 p.m. Wednesday at Cam-plex Plaza. There will be free appetizers and refreshments.

In attendance will be representatives from the five finalists for the NRG COSIA Carbon XPrize, as well as members of the Japanese Coal Energy Center.

They will be giving short presentations on their projects, and there will be plenty of time for networking.
