Phil Christopherson, CEO
Energy Capital Economic Development
PO Box 3948
Gillette, WY 82717

Dear Mr. Christopherson,

The mission of the Wyoming Business Council is to increase Wyoming's prosperity—for industries, businesses, communities and families. We cannot achieve this mission without the dedicated, boots-on-the-ground organizations such as Energy Capital Economic Development. Whether economic development happens at the state or local level, it requires investment, public and private support, and different thinking. I applaud the work of Energy Capital and Gillette College towards these ends.

The grassroots efforts of Energy Capital Economic Development and Gillette College will make lasting impact to Campbell County's economy—as well as Wyoming's. Your efforts to align economic and workforce development will pay dividends and create opportunities for Wyoming's next generation.

Energy Capital is a leading economic development organization and we are a proud partner. We applaud the success of your partnership in bringing this important matter to Campbell County voters.

Sincerely,

Shawn Reese
Chief Executive Officer
